

Important information! We have increased security for your benefit.

K&H Bank has made the 3D Secure technology-based internet security code service mandatory for all of their customers with a bank card.

K&H Bank Zrt. provides the possibility of card payment, through a secure system that uses SSL protocol. During card payment, you will be redirected to the K&H Bank payment page, and the payment takes place directly on the site operated by the Bank, in accordance with international card association rules and security regulations. Travel4you Minibus Kft. does not have access to your card or the underlying account data, number, or expiration date in any form.

You can pay the service fee online with the following types of bank cards:

MasterCard products (MasterCard, MasterCard Electronic, Maestro)

VISA products (VISA, VISA Electron, Visa V Pay)

JCB

For payment with a bank card, you will need the following information:

(1) card number (the 13-19 digit number appearing on the front of the card)

(2) expiration date (the number appearing on the front of the card, either embossed or printed, in the format mm/yy)

(3) verification code (the last three digits of the number series found on the signature panel on the back of the card) (CVV2, or CVC2).

To ensure a successful card purchase, pay attention to the following:

only try to pay with the above card types

always have sufficient funds in your account

accurately enter the 3 card details indicated above

make sure your card is not expired

payment starts only upon clicking the "Pay" icon.
